

Geography Long term Map Overview 2026-2027 John Blow Primary School

What is Geography? (Child Friendly Definition)

Geography is learning about our world – the places in it, the people who live there, and how the Earth is always changing.

Geography	Autumn	Spring	Summer
EYFS	Where do I live? 	Where is a good place to build a castle? 	Where can I travel? 
Y1	What is the weather like in the UK? 	What do Maps/Atlases show? 	Where did Robin Hood live? 

Y2

How is the UK different to Kenya?

Can you draw a map?

What is London like?

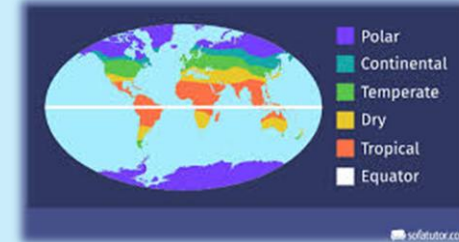

Y3

Why are rivers important?

5

"How can we use maps and teamwork to find our way through places?"

What causes different climates?

Y4	Would you live by a volcano? 	What are the key geographical features of the UK? 	Did the Romans live nearby? 
Y5	Rainforests- Why are Rainforests important? 	Mountains- Are mountains dangerous? 	Map Skills- How to orientate yourself? River study- What are the features of a river? 
Y6	How does Antarctica's climate and location influence the way humans and animals survive?	What is the economic activity of the UK?	Is Collingham still a village?

Geography Enrichment and Enhancement at John Blow Primary School

At John Blow Primary School, we believe that geography should be brought to life through memorable first-hand experiences, local fieldwork and immersive learning opportunities. Our geography curriculum is carefully enhanced through educational visits, visitors, workshops and outdoor learning experiences to help children develop a deeper understanding of the world around them and the relationships between people, places and environments.

We aim for children not only to learn geographical knowledge, but also to experience geography in meaningful and engaging ways. Through enrichment opportunities, pupils are encouraged to develop curiosity, ask questions, conduct fieldwork, explore different environments and make connections between local, national and global geography.

As a school rooted within the local community of Collingham and the surrounding Lincolnshire and Nottinghamshire area, we place great importance on helping children understand the geography of their local area. Children regularly investigate local landscapes, settlements, land use and environmental issues through fieldwork and outdoor learning. By exploring their immediate surroundings and comparing them with other regions of the United Kingdom and the wider world, pupils develop a strong sense of place and an appreciation of how geographical processes shape the environments in which we live.

Through these experiences, children are inspired to become informed, responsible and active global citizens who understand their role in caring for the world around them.

Across the school, enrichment opportunities include:

EYFS	Y1	Y2	Y3	Y4	Y5	Y6
Local visits		Yorkshire Wildlife Park	Hartsholme Park Orienteering	Roman Lincoln	Perlethorpe Orienteering
